

July 30, 2019

Dear All,

The Nevada Department of Health and Human Services (DHHS) has hired a consulting firm, The Blueprint Collaborative, to assist with a comprehensive state health needs assessment. This assessment will identify important health and community needs within each county, for the entire state, and will be important in determining allocation for future public health funding.

We are inviting you to participate in the statewide health needs assessment as a survey participant. The survey only takes **3-4 minutes** to complete and can be accessed via the **highlighted links** below (English and Spanish survey links are both available).

In addition, we ask that you please forward this survey to friends, family and co-workers (as appropriate) throughout the State of Nevada. We are looking for representation from **any Nevada resident who is 18 years and older. This survey will close on August 23rd, 2019.**

Thank you for participating and forwarding this to other community members in Nevada! If you have any questions, please contact Dina Hunsberger at dina@theblueprintcollaborative.com.

Thank you.

Joe
